EXPERIENCE

OOUMPH MEDIA | Software Engineer

January 2024 – Present | Noida, U.P.

- Working on PMO project.
- Created a highly responsive user interface compatible with all devices.
- Integrated dynamic data feeds into the UI, eliminating manual data entry and enhancing data accuracy by 12%.
- Integrated Accessibility features like theming, invert and saturation filters, text size increase and decrease in a single click.

DOEASILY | Frontend Developer

August 2023 – October 2023 | Bengaluru, Karnataka

- Implementing new features for customers to track their jewelry purchase and sale history.
- Implemented table and tile views for ledger access, enhancing customer experience and enabling seamless review of purchase and sale records, resulted in a 30% increase in customer engagement and a 25% decrease in user error rates.
- Establishing an onboarding procedure to facilitate a smooth initiation for new customers when they embark on using the application.
- Implemented keyboard shortcuts for enhanced user interaction and efficiency.

BOOKEE | Software Developer Engineer Intern (Frontend)

March 2023 – June 2023 | Bengaluru, Karnataka

- Utilized Angular framework to create responsive user interfaces for a CRM application, guaranteeing seamless user experience across various devices and browsers.
- Worked together with backend developers and designers to fuse frontend components with backend REST APIs, ensuring smooth data flow and system functionality.
- Handling STRIPE payment and integrate innovative features such as introducing a referral system and enabling the addition of digital signatures on forms. - React.js

TALENT SUMO | Frontend Intern

June 2022 - Feb 2023 | Nagpur, Maharashtra

- Designed and developed a comprehensive user interface facilitating end-to-end functionality for an AI bot specialized in automatic assessment and feedback. Application areas include interview preparation, sales and leadership training, course testing, job screening, and simulations.
- Crafted a user-friendly UX (User Experience) to enhance accessibility and ease of interaction.
- Engineered a highly responsive user interface adaptable to various devices, ensuring seamless user experiences across platforms.
- Implemented robust features for video and audio recording within the application, enhancing its versatility and effectiveness for users.
- Integrated secure login and signup functionality to manage user authentication and access control effectively.
