
SKILLS

- **Frontend Engineering:** React.js, Next.js, Angular, JavaScript, TypeScript, HTML5, CSS3, Sass
- **UI Engineering & Design Systems:** MUI, Tailwind CSS, Bootstrap, Chakra UI, Ant Design, Shadcn
- **State & Data Management:** Redux, Zustand, Recoil, TanStack Query, REST APIs, Axios
- **Authentication & Integration:** Keycloak, OAuth 2.0, Firebase
- **AI & Automation:** Microsoft Copilot Studio, Power Automate, Power Apps, Power BI
- **Backend & Data:** PostgreSQL, SQL
- **DevOps & Tools:** Docker, Git, GitHub, GitLab, Postman, Figma

EXPERIENCE

- **Ernst & Young (EY)** Delhi, India
Consultant May 2024 – Present
 - **AI-Powered HR Assistant:** Designed an **enterprise AI-powered HR assistant using Microsoft Copilot Studio** with **agentic workflows** for leave management, onboarding, HR policies, and document retrieval.
 - **AI Automation & Knowledge Integration:** Integrated organizational knowledge sources for **context-aware, grounded responses** and automated approval and escalation workflows using **Power Automate**, reducing repetitive manual processes.
 - **Enterprise AI Solution Design:** Translated HR requirements into **conversation flows and AI-assisted experiences**, working across **Copilot Studio, Power Automate, Power Apps, and Power BI**.
 - **Immigration Control System (ICS 2.0):** Developed scalable **React.js applications serving 10,000+ daily users** across airport and seaport immigration operations, focusing on reliability and maintainable frontend architecture.
 - **Frontend Architecture & Performance:** Built **reusable UI components**, refactored legacy code, resolved **100+ production issues**, and improved application maintainability by **30%**.
 - **Passenger Clearance Integration:** Integrated **camera, biometric, QR, and PRM hardware interfaces** into passenger clearance workflows, enabling automated processing.
 - **Analytics & Operational Insights:** Developed **Power BI dashboards** for immigration activity, operational performance, and passenger clearance metrics.
 - **Technical Leadership:** Mentored **10+ frontend developers**, contributed to architectural decisions, and collaborated with backend, DevOps, and security teams on production systems.
- **Oooumph Media** Delhi, India
Frontend Engineer Jan 2024 – Apr 2024
 - **GOV.IN & DBIM Platforms:** Developed **9+ production-grade government portals using Next.js and SSR**, focusing on performance, accessibility, and scalable frontend architecture.
 - **Accessibility & Compliance:** Implemented **WCAG-compliant UI components**, achieving **90+ Lighthouse Accessibility scores** and aligning platforms with **GIGW and DBIM standards**.
 - **Multilingual Experience:** Integrated **Bhashini APIs** to enable multilingual experiences and improve accessibility across government platforms.

PROJECTS

- **CataList [GitHub] | [Link]:** A markdown notes application that allows users to create, edit, and delete notes with support for markdown formatting. Users can also organize their notes using tags and filter notes based on titles or tags. All data is stored in the local storage of the user's browser, ensuring a seamless and personalized experience.
- **Wacky Workspace [GitHub] | [Link]:** Your versatile and user-friendly file management solution.
- **Postman Clone [Github] | [Link]:** PostMan is an application used for API testing. It is an HTTP client that tests HTTP requests, utilizing a graphical user interface, through which we obtain different types of responses that need to be subsequently validated.

EDUCATION

- **Jaypee University of Engineering and Technology** Guna, Madhya Pradesh
B.Tech in Computer Science; CGPA: 7.1 August. 2019 – May. 2023

ACHIEVEMENTS

- **Extraordinary Contributor Award:** Received the **Extraordinary Contributor Award at Ernst & Young LLP** for outstanding performance and contribution as a **Frontend Developer**.
